PRESENTATION

Le dictionnaire des villages de la Meme comprend la liste de tous les villages considérés comme tels par les différentes sources officielles : registre des chefs, recensements administratifs de 1966/68 et de 1972, recensement de 1953, liste des imposables, liste des électeurs par bureau de vote (1970 et 1972).

Il donne les chiffres de population des recensements de 1953, de 1966/68 et de 1972 (arrondissements de Bangem, Nguti et Tombel seulement). Les divers éléments démographiques ont été comparés dans les tableaux statistiques introductifs. Il ressort de ce travail que l'ensemble des données démographiques semble proche de la réalité (légère sous-estimation parfois). Seul, le recensement administratif de 1972 de l'arrondissement de Nguti paraît sur-estimé. Ceci est particulièrement vrai pour les groupements Mbo. Le lecteur doit être conscient du peu de crédit que l'on peut accorder aux chiffres de population donnés qui n'ont d'autre intérêt que de présenter des ordres de grandeur.

Pour les noms de villages nous avons donné les diverses appellations officielles en nous conformant à la graphie de type anglophone. Il y a parfois des divergences avec la prononciation locale.

Les renseignements administratifs, économiques et sociaux figurant dans ce dictionnaire ont été fournis par les divers services administratifs : délégation provinciale de l'enseignement primaire, directions départementales des forêts, du développement communautaire, de l'agriculture, des coopératives, de la médecine préventive et des grandes endémies. Les services préfectoraux, les local councils, les unions de coopératives primaires de Kumba et de Tombel, les directions des plantations industrielles nous ont aidé à compléter notre fichier des villages.

La position de chaque village, est donnée par ses coordonnées géographiques exprimées en degrés et minutes: parallèle (distance à l'Equateur) et méridien (distance au méridien ^{de} Greenwich). On peut retrouver facilement la plupart des villages dans les cartes topographiques publiées par l'Institut Géographique National (B.P. 157 YAOUNDE) qui a publié 2 cartes au 1/200 000 concernant la région (BUEA-DOUALA et MAMFE) ainsi que 2 cartes au 1/50 000 (BUEA-DOUALA 3b et 4a) concernant le sud du département. De l'époque anglaise, seul le 1/250 000 dessiné par le Surveys department Nigeria (sketch map of Kumba and Victoria divisions - 1953) peut être de quelque utilité. Il existe également une carte de Kumba au 1/2 500 en 14 feuilles effectuée par le Hunting Surveys en 1965 d'après des photographies aériennes prises en 1960.

Le ressort territorial du département de la Meme, a été fixé le 30 août 1968 avec la création du département de la Ndian qui a amputé l'ancien département de Kumba organisé par le décret n°63-DF-250 du 26 juillet 1963. Avec la création de l'arrondissement de Nguti les groupements Nborat ~~rat~~ attachés auparavant au département de Mamfé sont passés dans le ressort territorial de la Meme.

Les groupements judiciaires retenus sont ceux qui ont été établis le 24 octobre 1968 par le Premier Ministre de l'Etat fédéré du Cameroun Occidental en application de la loi sur les tribunaux coutumiers (chapitre 142 de l'édition des lois de 1948) et publiés dans le supplément de la West Cameroon Gazette n° 49 du 9 novembre 1968.

Ce dictionnaire a été préparé avec la collaboration de Victorine NGO BOTOK et de Francis NGUM KWE.

Nous serions reconnaissant aux utilisateurs de ce dictionnaire de bien vouloir nous signaler toutes les erreurs ou omissions qu'ils pourraient y relever.

INTRODUCTION

The village dictionary of Meme division consists of a list of all places considered as villages by the different official documents such as: register of chiefs, administrative census of 1966/68 and that of 1972, 1953 census, tax-payers lists, list of voters for each polling station.

It gives population figures extracted from 1953, 1966/68 and 1972 censuses (1972 census only for Bangem, Nguti and Tombel subdivisions). The various demographic materials have been compared in the preliminary statistical tables. It appears that the whole population data seems to be nearly correct (sometimes there is a slight under-estimation). The 1972 census, for the Mbo village groups, is the only case of over-estimation.

The reader must bear in mind that these population figures give only an approximate idea of the exact number of inhabitants

For the names of the villages, we give the various official spellings written in the English way. Sometimes it appears different from the native pronunciation.

Administrative, economic and social informations come from the following departments: provincial delegation for education, forestry community development, agriculture, cooperative and preventive medicine divisional departments. The divisional and subdivisional offices, the local councils, the Kumba federation and Bakossi federation of C.P.M.S., the plantation managers gave us help to fulfil all the village card - index.

Our thanks go to all officers who cooperated with us.

The position of each village is given by its geographical coordinates expressed in degrees and minutes: latitude (distance north or south to the Equator) and longitude (distance east or west of the Greenwich meridian).

One can find easily the greater part of the villages in the topographic maps published by the Institut Geographique National (B.P. 157 YACUNDE) which has printed two maps in the scale of 1 to 200,000 covering the division (BUEA-DOUALA and MAMFE) and two maps in the scale of 1 to 50,000 concerning the southern part of the division (BUEA-DOUALA 3b and 4a). From the english period only the sketch map of Kumba and Victoria divisions drawn by the Surveys department Nigeria in 1953 can be used. A town-plan of Kumba in 14 sheets (scale: 1 to 2,500) has been published by Hunting surveys in 1965. It has been compiled from air-photos taken in 1960.

The territorial extend of Meme division was fixed the 30th of august 1968, when Ndian division was created. The Mbo village groups have been attached to Meme division when Nguti sub-division was created.

The customary court areas are those established by the Prime Minister of the Federated State of West Cameroon in October 1968. The list was published on the West Cameroon Gazette supplement n° 49, vol.8 of the 9th of november, 1968.

This dictionary has been compiled with the collaboration of Victorine NGO BOTOK, and Francis NGUM KWE.

We would be grateful to the readers of the dictionary if they point out mistakes and omissions.

Buca, june 1973

SIGNIFICATION DU CODE CHIFFRE
MEANING OF THE CODE NUMBER

- . Premier chiffre: province 1. Centre-Sud = Central South
First number : "do" 2. Est = East
3. Littoral = Littoral
4. Nord = North
5. Nord-Ouest = North-West
6. Ouest = West
7. Sud-Ouest = South-West

- . Deuxième chiffre: département 1. Fako 3. Meme
Second number : division 2. Manyu 4. Ndian

- . Troisième chiffre: arrondissement 1. Bangem 3. Nguti
Third number : subdivision 2. Kumba 4. Tombel

- . Quatrième chiffre: groupement
Fourth number : customary court area

- . Cinquième chiffre: numéro d'ordre
Fifth number : serial number
