PRESENTATION

Le dictionnaire des villages de la Ndian comprend la liste de tous les villages et campements de pêcheurs considérés comme tels par les différentes sources officielles: registre des chefs, recensements administratifs de 1968-69 et de 1972, liste des imposables, liste des électeurs par bureau de vote (1970).

Il donne les chiffres de population des recensements de 1953, de 1968-69 et de 1972. Les divers éléments démographiques collectés ont été comparés dans le tableau statistique introductif. Pour les arrondissements de Mundemba et d'Ekundu Titi les données des recensements administratifs semblent proches de la réalité. Pour l'arrondissement de Bamusso peuplé de pêcheurs nigériens instables les données ne sont pas sûres. Le lecteur doit donc être conscient du peu de crédit que l'on peut accorder aux chiffres de population donnés qui n'ont d'autre intérêt que de présenter des ordres de grandeur.

Pour les noms de villages nous avons donné les diverses appellations officielles en nous conformant à la graphie de type anglophone. Nous avons également adopté la graphie officielle proposée pour les noms efik des campements de pêcheurs de l'arrondissement de Bamusso. Il y a parfois des divergences avec la prononciation locale.

Les renseignements administratifs, économiques et sociaux figurant dans ce dictionnaire ont été fournis par les divers services administratifs: délégation provinciale de l'enseignement primaire, directions départementales de l'agriculture, des coopératives, de la médecine préventive et des grandes endémies. Les services des sous-préfectures et des préfectures, le local council, l'union de coopératives primaires de Kumba, la direction de la Pamol nous ont aidé à compléter notre fichier des villages.

La position de chaque village, est donnée par ses coordonnées géographiques exprimées en degrés et minutes: parallèle (distance à l'Equateur) et méridien (distance au méridien de Greenwich). On peut retrouver facilement la plupart des villages dans les cartes topographiques publiées par l'Institut Géographique National (B.P. 157 YAOUNDE) qui a publié 3 cartes au 1/200 000 concernant le département (BUEA-NDIAN, BUEA-DOUALA et MAMFE). De l'époque anglaise, seul le 1/250 000 dessiné par le Surveys department Nigeria (Sketch map of Kumba and Victoria divisions 1953) peut être de quelque utilité.

Le ressort territorial du département de la Ndian a été fixé le 30 août 1968 date de sa création et les trois arrondissements le composant ont été définis par les décrets n° 69/DF/581 du 29 décembre 1969 (Ekundu Titi et Mundemba) et le décret n° 05/DF/217 du 24 mai 1965 (Bamusso). Depuis un district a été créé dans l'arrondissement de Bamusso: le district de Jabané. Le centre administratif de ce district a été récemment transféré à Idabato.

Les groupements judiciaires retenus sont ceux qui ont été établis le 24 octobre 1968 par le Premier Ministre de l'Etat fédéré du Cameroun Occidental en application de la loi sur les tribunaux coutumiers (chapitre 142 de l'édition des lois de 1948) et publiés dans le supplément de la West Cameroon Gazette n° 49 du 9 novembre 1968.

Ce dictionnaire a été préparé avec la collaboration de Victorine NGO BOTOK et de Francis NGUM KWE.

Nous serions reconnaissant aux utilisateurs de ce dictionnaire de bien vouloir nous signaler toutes les erreurs ou omissions qu'ils pourraient y relever.

INTRODUCTION

The village dictionary of Ndian division consists of a list of all places considered as villages or fishing settlements by the different official documents such as: register of chiefs, administrative censuses of 1968-69 and 1972, tax-payers lists, list of voters for each polling station (1970).

It gives population figures extracted from 1953, 1968-69 and 1972 censuses. The various demographic materials have been compared in the preliminary statistical table. It appears that the population data seems to be nearly correct in Mundemba and Ekundu Titi subdivisions. In Bamusso subdivision where mobile fishermen from Nigeria are found the data given are uncertain.

The reader must bear in mind that these population figures give only an approximate idea of the exact number of inhabitants.

For the names of the villages, we give the various official spellings written in the English way. Also, we have taken official spellings proposed instead of the Efik names for the fishing settlements in Bamusso subdivision. Sometimes it appears different from the native pronunciation.

Administrative, economic and social informations come from the following departments: provincial delegation for education, agriculture, cooperatives and preventive medicine divisional departments (Meme - Ndian charges). The divisional and subdivisional offices, the local council, the Kumba federation of C.P.M.S., the Pamol management gave us help to fulfil all the village card-index.

Our thanks go to all officers who cooperated with us.

The position of each village is given by its geographical coordinates expressed in degrees and minutes: latitude (distance north or south to the Equator) and longitude (distance east or west of the Greenwich meridian).

One can find easily the greater part of the villages in the topographical maps published by the Institut Géographique National (B.P. 157 YAOUNDE) which has printed 3 maps concerning the division (BUEA-NDIAN, BUEA-DOUALA, MAMFE). From the English period only the sketch map of Kumba and Victoria divisions drawn by the Surveys department can be used.

The territorial extent of Ndian division was fixed the 30th of August, 1968. The 3 subdivisions have been clearly defined by decrees n° 69/DF/581 of the 29th^{of} november, 1969 (Ekundu Titi and Mundemba) and n° 05/DF/217 of the 24th of may, 1965 (Bamusso). Since a "district" has been created under Bamusso subdivision at Jabane. It has been tranferred at Idabato in 1973 .

The customary court areas are those established by the Prime Minister of the Federated State of West Cameroon in october 1968. The list was published on the West Cameroon Gazette supplement n° 49 vol. 8 of the 9th of november, 1968.

This dictionary has been compiled with the collaboration of Victorine NGO BOTOK and Francis NGUM KWE.

We would be grateful to the readers of the dictionary if they point out mistakes and omissions.
