RAPPORT II BIS

Annexe technique : Index  
des Villages et Lieux-dits  
Mélanésien anciennement habités

Nous présentons ici un index alphabétique de tous les villages ou hameaux Mélanésiens positionnés sur nos cartes, ainsi qu'un certain nombre d'entre eux pour lesquels nous n'avons qu'une localisation communale et qui de ce fait par souci d'exactitude stricte ne figurent pas sur la série de carte d'Evolution historique de l'espace foncier Mélanésien mais sont répertoriés dans les sources rapport n° 2.

Pour chaque village nous donnons le numéro et le nom de la carte sur laquelle il est mentionné, le service (ORSTOM ou Service des Domaines et Topographique) qui l'a positionné et qui en donne la source.

Ce travail laborieux de compilation nous paraît être un instrument indispensable de toute recherche rapide et efficace pour les utilisateurs de ces travaux.
