

Taxonomy of Coccinellids

Jean Chazeau, Helmut Fürsch & Hiroyuki Sasaji

Coccidulinae

Tetrabrachini: Tetrabrachys, Mimolithophilus.

Coccidulini: Adoxellus, Auladoria, Aulis, Botynella, Bura, Coccidula, Dioria, Empia, Erithionyx, Epipleuria, Geodimmockius, Hazisia, Hypoceras, Microrhizobius, Neorhizobius, Nothorhizobius, Oridia, Psorolyma, Rhyzobius, Rodatus, Sicara, Stenococcus.

Sumniini: Sumnius.

Exoplectrini: Ambrocharis, Coeliaria, Cyrtaulis, Dapolia, Discoceras, Exoplectra, Hovaulis, Peralda, Siola, Syntona.

Noviini: Anovia, Eurodolia, Novius, Rodolia, ~~Vedalia~~.

Azyini: Azya, Ladoria, Pseudoazya.

Scymninae

Stethorini: Stethorus (Subg.: Stethorus, Allostethorus, Parastethorus).

Scymnini: Acoccidula, Apseudoscymnus, Axinoscymnus, Bucolinus, Bucolus, Clitostethus, Cryptolaemus, Cycloscymnus, Cyrema, Decadiomus, Diomus, Horniolus, Keiscymnus, Leptoscymnus, Metascymnus, Midus, Nephus (Subg.: Nephus, Bipunctatus, Depressoscymnus, Geminosipho, Parascymnus, Scymnobioides, Sidis, Turboscymanus), Parasidis, Propiptus, Pseudoscymnus, Pullosidis, Scymnicus, Scymnodes, Scymnus (Subg.: Didion, Mimopullus, Neopullus, Pullus, Scymnus), Veronicobius.

Scymnillini (Art. 40): Viridigloba, Zagloba, Zilus.

Selvadiini: Selvadius.

Cranophorini: Cassiculus, Cranophorus, Cranoryssus, Neoryssomus, Orynipus, Paracranoryssus, Rhizoryssomus.

Hyperaspini: Blaisdelliana, Brachiacantha, Diazonema, Helesius, Hinda, Hyperaspidioides, Hyperaspis, Thalassa, Tiphysa.

Ortaliini: Amida, Amidellus, Anortalia, Azoria, Cinachyra, Eupalea, Ortalia, Ortalistes, Paramida, Poria, Rhynchortalia, Scymnhova, Zenoria.

Cryptognathini: Cryptognatha, Curticornis, Delphastobia, Delphastopsis, Haemoplota, Heterodiomus, Palaeoneis, Pentilia.

Chilocorinae

Telsimiini: Hypocyrema, Telsimia.

Platynaspini: Boschalis, Paraplatynaspis, Phymatosternus, Platynaspidius, Platynaspis.

Chilocorini: Anisorcus, Arawana, Axion, Brumoides, Brumus, Chilocorus (Subg.: Chilocorus, Trichocorus), Cladis, Corystes, Curinus, Egius, Endochilus, Exochomus (Subg.: Anexochomus, Exochomus, Parexochomus), Hal-mus, Harpasus, Orcus, Paraprius, Phaenochilus, Prius, Simmondsius, Trichorcus, Zagreus.

Aspidimerini: Acarinus, Aspidimerus, Cryptogonus, Pseudaspidimerus.

Sticholotidinae

Cephaloscymnini: Cephaloscymnus, Neaporia (Subg.: Aneaporia, Neaporia), Prodilis, Prodiloides.

Discotomini: Discotoma, Euseladia, Pristonema, Seladia, Vodella.

Microweiseini: Coccidophilus, Dichaina, Diloponis, Gnathoweisea, Microcapillata, Microfreudea, Microweisea, Nipus, Pseudosmia, Sarapidus, Stictospilus.

Oryssomini: Oryssomus, Pseudoryssomus.

Serangiini: Catana, Catanella, Delphastus, Microserangium, Microscymnus, Semichnoodes, Serangiella, Serangium.

Shirozuellini: Shirozuella, Ghania.

Sticholotidini: Bucolellus, Buprestodera, Coelopterus, Glomerella, Habrolotis, Hemipharus, Jauravia, Lotis, Neotina, Nesina, Nesolotis, Nexophallus, Paracoelopterus, Parajauravia, Paranesolotis, Paraplotina, Pharopsis, Pharo-scymnus (Subg.: Gymnopharus, Pharo-scymnus), Phlyctenolotis, Plotina, Promecopharus, Scymnomorphus, Sphaeroplota, Sticholotis, Stictobura, Trimallena, Xamerpillus, Xanthorcus, Xestolotis.

Sukunahikonini: Hikonasukuna, Orculus, Paraphellus, Pharellus, Scotoscymnus.

Coccinellinae

Psylloborini: Cleobora, Eothea, Halyzia, Macroilleis, Metamhyrra, Microneda, Neohalyzia, Oxytella, Protothea, Psyllobora, Vibidia.

Tytthaspini: Tytthaspis.

Bulacini: Bulaea (in support of larvae)

Coccinellini: Aages, Acoccinella, Adalia (Subg.: Adalia, Adalia-morpha), Agrabia, Ailocaria, Alloneda, Anatis, Anisolemnia, Anisosticta, Antineda, Anegleis (Subg.: Anegleis, Pseudanegleis), Aphidecta, Archegleis, Australoneda, Autotela, Bothrocalvia, Callicaria, Callineda, Calvia, Cheilomenes (Subg.: Cheilomenes, Elpis), Chloroneda, Clynis, Coccinella (Subg.: Acoccinella, Chelonitis (or genus?), Coccinella, Neococcinella), Coccinellina, Coccinula, Coelophora, Coleomegilla, Cycloneda, Cyrtocaria, Declivitata, Docimocaria, Dysis, Egleis, Eoadalia, Eonae-mia, Eoneda, Eriopis, Erythroneda, Eumegilla, Harmonia, Heterocaria, Heteroneda, Hippodamia (Subg.: Adaliopsis, Adonia, Asemiadalia, Ceratomegilla, Hippodamia, Parippodamia, Semiadalia), Hysia, Illeis (Subg.: Anchilleis, Illeis, Leptothea), Isora, Lemnia (Subg.: Artemis, Lemnia, Microlemnia, Synia), Lioadalia, Macronaemia (Subg.: Allonaemia, Macro-naemia), Megalocaria, Megillina, Micraspis, Micro-caria, Mononeda (Subg.: Mononeda, Paramicraspis), Mulsantina, Myrrha, Myzia, Naemia, Neda, Nedina, Neocalvia, Neoharmonia, Neopalla, Nesis, Oenopia (Subg.: Gyrocara, Oenopia), Oiocaria, Olla, Omalocaria, Palaeoneda, Pania, Paramulsantina, Paranaemia, Paraneda, Phrynocaria, Procula, Propylea, Pseudadonia, Sospita, Sphaeroneda, Spiloneda, Stenadalia, Synonyma, Xanthadalia.

Discotomini: Discotoma, Euseladia, Pristonema, Selasia, Vodella.

Singhikalini: Singhikalia.

Epilachninae

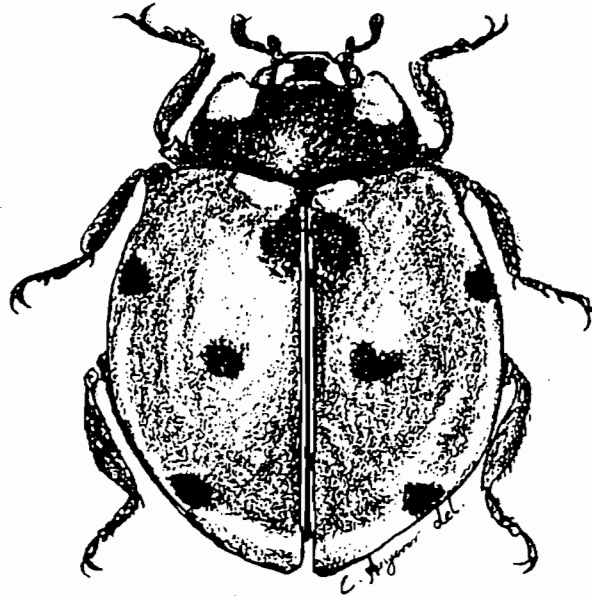

Epilachnini: Afidenta, Afidentula, Afissula, Afilachna, Ballida, Chnootriba, Dira, Epilachna, Macrolasia, Subafissa, Subcoccinella, Subepilachna, Toxotoma.

Epivertini: Epiverta.

Madaini: Bambusicola, Cynegetis, Damatula, Lorma, Mada, Malata, Megatela, Merma, Pseudodira, Tropha.

Eremochilini: Eremochilus.
